CEDRA Corporation Names CEO

(Austin, TX; May 11, 2010) — [CEDRA Corporation](#), a division of [Worldwide Clinical Trials](#) (WCT) and a provider of Phase I clinical research and bioanalytical services, announced today that Anthony G. Busa, Jr., has been named Chief Executive Officer.

Busa has over 34 years of experience in management positions including senior level management, regional and national sales and product development within the pharmaceutical and medical device industries. His new position at CEDRA will utilize his core values and strategic vision developed throughout decades of experience.

“Anthony is an experienced, high caliber professional. He has a thorough understanding of how this business and industry functions,” stated Worldwide Clinical Trials Chief Operating Officer, Tom Wardle. “He will be a great asset to our team in terms of growth and management.”

Busa received his Bachelor of Science degree in biology from Iona College, located in New Rochelle, NY. He is a member of [Drug Information Association](#) (DIA), [American Management Association](#) (AMA) and [Healthcare Manufacturer’s Marketing Council, Inc.](#) (HMMC).

Previously, Busa held senior management related positions at McClintic Busa Group, LLP, dgd Research, Inc., Esoterix, Inc., Medsites, Inc., and Covance, Inc.

About CEDRA

CEDRA Corporation, a division of Worldwide Clinical Trials, offers a full range of Phase I-IIb [clinical research](#) and [bioanalytical](#) services, as well as [specialized studies](#) to the pharmaceutical/biotech and medical device industries.
